Java

### Cloud Computing

## 🏆 ACHIEVEMENTS

**Maintaining high CGPA showing a strong grasp of the academics**

**Holding a successful position as Goonj Head**

**Successfully organized the Street Play and Mono Acting events at the college fest**

**Represented college in Poetry Slams and Street Plays in colleges including IIM Bangalore, BITS Goa, IIT Bombay, IISC Bangalore**

## 📁 PROJECTS

### Spotify Clone

This is developed purely by using HTML, CSS, and JavaScript. In this project, the songs can be played from a given list, they can be paused, we can go to the next and previous song and we can even manipulate the audio position.

### Vehicle Workshop

Developed using HTML, CSS, Flask, and SQL Alchemy. This maintains a record of the day-to-day work of the workshop. It is capable of performing all the CRUD operations.

### Hospital Management System

Developed by using Java. It helps the patients to see the doctors available in the hospital and also their setting time. It also helps management to see doctors, junior doctors, nurses and, workers' details as to when will they be present in the hospital. Concepts of linked lists have been used in this project

### Banking System

Developed by Java and connected to SQL database using JDBC. All transaction operations can be performed. Transfer of money from one account to other can also be performed.

### Employee Management System

End to end project developed using Spring as backend and ReactJS as frontend. It can perform all the CRUD operations on employee database.

## 📄 CERTIFICATES

**Certificate of Completion for AWS Academy Graduate - AWS Academy Cloud Foundations**

**Fundamentals of Programming using Python from Infosys Springboard**

**Basics of Python from Infosys Springboard**

**Certificate of Achievement for successfully completing TCS iON Career Edge - Young Professional (a course on soft skills)**
